

API Policy

Introduction

This is a legal agreement between you, the potential user/developer ("You"), and Saavn Media Limited, its subsidiaries and its affiliates (collectively referred to as "JioSaavn"). By using the JioSaavn Platform and Services, you also agree to our [Terms of Use](#) and this policy is to be read along with the same. JioSaavn is committed to creating a safe, compliant, non-infringing environment for everyone.

NOTICE: Please read these Terms carefully. They cover important information about the JioSaavn Platform provided to you.

A. Purpose and Scope

This policy establishes guidelines and responsibilities for the secure, ethical and effective use of Application Programming Interfaces (APIs). This policy is intended to ensure responsible use, protect users and data and align with legal, ethical and safety standards. The API is a private, restricted interface. It is provided for the exclusive use of JioSaavn and its Licensed Affiliates. No right of access is granted to the public, to developers, to researchers, to academics, to journalists, to archivists, or to any other person, whether or not the intended purpose is educational or commercial. Access by any person other than JioSaavn is permitted only where that person holds valid credentials issued by JioSaavn. Any other access will be considered as Unauthorised Use, is a circumvention of technological protection measures, and will be legally pursued.

This Policy applies to every API, whether or not documented, whether or not publicly announced, whether or not protected by TPM (as defined here) and whether reached through the Platform's own clients or by any other means. The absence of documentation, the absence of a rate limit, the absence of an authentication challenge, or the technical accessibility of an endpoint does not constitute a grant of access and shall not be construed as one.

This Policy applies worldwide. The API may be accessed from any territory; JioSaavn's rights are asserted in every territory in which access occurs, in which infringing copies are made available, and any impact to JioSaavn is observed.

B. Definitions

Affiliate. Any entity that directly or indirectly controls, is controlled by, or is under common control with the Company, where "control" means ownership of more than fifty percent (50%) of the voting securities or the power to direct management.

JioSaavn Platform includes but is not limited to JioSaavn mobile application, JioSaavn website, JioSaavn API, JioSaavn SDK and JioSaavn Widget.

JioSaavn Content means any content, data, information or material made available through the JioSaavn Platform. This may include, among other things, sound recordings, cover art, musical works, podcasts, song lyrics, metadata, playlists, the JioSaavn name, logo, trade dress and marks, and user data including JioSaavn Personal Data.

Licensed Content means sound recordings, musical works, literary works and associated artwork made available on the JioSaavn Platform under licence from third-party rightsholders.

Endorsement and promotion. You are not permitted to build an SDK which implies or suggests any endorsement, tie-in, co-branding or promotion by JioSaavn or any creator, artist, rightsholders, or sound recording.

TPM. Technological protection measures, including authentication walls, Credentials, rate limits, request signing, certificate pinning, obfuscation, encryption and digital rights management, deployed by the Company to restrict access to the API, the Database, Platform Content or Licensed Content.

API. Any application programming interface, endpoint, RPC, GraphQL schema, WebSocket channel, SDK, webhook, manifest, streaming URL, signed URL, or other programmatic interface, whether public, private, undocumented, internal, deprecated, or exposed only incidentally through the JioSaavn Platform's client applications, by which data or media is transmitted to or from the JioSaavn Platform..

Unauthorised Use. Any access to, use of, or interaction with the API otherwise than by an Owner, or by an Authorised Partner strictly within the scope of its Partner Schedule.

C. Ownership and Reservation of Rights

All JioSaavn Content is owned and or controlled exclusively by JioSaavn. Without limitation, JioSaavn is the first owner of copyright in the JioSaavn Content, as original artistic works.

D. Authorised Affiliates

Subject to continuous compliance with this Policy, and subject to a valid and existing agreement with JioSaavn, for the grant of a limited, personal, non-exclusive, non-transferable, non-sublicensable, revocable, royalty-free licence, for the term stated in its agreement terms with the Affiliate, the Affiliate shall be authorised to access those endpoints, as identified in the agreement, solely for the purposes stated in the applicable agreement, and for no other purpose.

E. Prohibited Activities.

No Grant of Proprietary Rights. JioSaavn does not grant you any intellectual property rights or other proprietary rights with regard to its API, JioSaavn Platform and/or JioSaavn Content. As between you and JioSaavn and its authorised Licensors retain all intellectual property rights (including all patent, trademark, copyright, trade secret, and other proprietary rights) in and to the JioSaavn Platform (including its documentation and specifications), JioSaavn Content, and any derivative works thereof.

You must not build, nor enable or encourage others to develop applications, websites and services and retrieve data from JioSaavn including :-

1. Not create any product or service which includes any interactive streaming and/or non-interactive internet webcasting service. For example, you can't create an application which plays content from a single source to several simultaneous listeners.
2. Not create any product or service which is integrated with streams or content from another service.
3. Not synchronize any sound recordings with any visual media, including any advertising, film, television program, slideshow, video, or similar content.
4. Not permit any device or system to segue, mix, re-mix, or overlap any JioSaavn Content with any other audio content (including other JioSaavn Content).
5. Not build products or services that enable the transfer of data to another service.
6. Not build products or services which are targeted for use by businesses, such as in-store or by retail employees.

7. Not build products or services that mimic, or replicate or attempt to replace user experience of JioSaavn or its group companies.
8. Not generate news media, or commercial product offers.
9. Not analyze the JioSaavn Content or the JioSaavn Service for any purpose, including without limitation, creating new or derived listenership metrics, benchmarking, functionality, usage statistics, user metrics, or building profiles of users, including for the purpose of targeting them with advertising or marketing.
10. Not use the JioSaavn Platform or any Content to train a machine learning or Artificial Intelligence ("AI") model or otherwise ingest Content available on JioSaavn into a machine learning or AI model.

F. Other Restrictions.

a. Misuse of the JioSaavn Platform. Do not misuse the JioSaavn Platform, including by

- i. modifying, editing, altering, creating derivative works, disassembling, decompiling, reverse-engineering, or extracting source code from the JioSaavn Platform (including any music libraries), JioSaavn Service, or JioSaavn Content (except to the extent such restrictions are expressly prohibited by law). You may adjust the size of metadata or cover art as necessary;
- ii. distributing or making copies of the JioSaavn Platform or making the JioSaavn Platform available to any person, except as expressly provided in these Developer Terms; or
- iii. interfering, or attempting to interfere, with the proper functioning or performance of the JioSaavn Platform or JioSaavn Service.

b. Unauthorized access. Do not facilitate unauthorized access to the JioSaavn Service or JioSaavn Content, including

- i. enabling access to, or use of, the JioSaavn Service or JioSaavn Content in violation of the Developer Agreement;
- ii. attempting to circumvent or render ineffective any geographical restrictions, including IP address-based restrictions; or
- iii. facilitating "stream ripping" or other functionalities that make it easier for users to capture or otherwise make permanent copies of JioSaavn Content.

- c. Illegal or unauthorized purpose.** Do not use the JioSaavn Platform, JioSaavn Service or JioSaavn Content for any illegal or unauthorized purpose, including:
- i. failing to comply with applicable laws and regulations; or
 - ii. misusing JioSaavn Intellectual Property, such as using JioSaavn Marks as part of the name of your company or service.
- d. Improper use.** Do not improperly access, alter or store the JioSaavn Platform, JioSaavn Service or JioSaavn Content , including
- i. using any robot, spider, site search/retrieval application, or other tool to retrieve, duplicate, or index any portion of the JioSaavn Service or JioSaavn Content (which includes playlist data) or collect information about JioSaavn users for any unauthorized purpose;
 - ii. making excessive service calls that are not strictly required for the proper functioning of your SDA;
 - iii. requesting, collecting, soliciting or otherwise obtaining access to user names, passwords, or other authentication credentials for the JioSaavn Service, other than through the means specifically provided for by the JioSaavn Platform and as strictly necessary to offer and operate your SDA.
- e. Transfer to third parties.** Do not transfer JioSaavn Content to third parties, including directly or indirectly transferring any data (including aggregate, anonymous or derivative data) received from JioSaavn to, or use such data in connection with, any ad network, ad exchange, data broker, or other advertising or monetization-related toolset, even if a user consents to such transfer or use. You may transfer JioSaavn Content to third party data processors, such as server providers for providing your SDA and consistent with your privacy policy and the permissions users have given you. You are responsible for any acts or omissions of those third parties.
- f. Harmful code.** Do not use any viruses, worms, Trojan horses, or any other harmful code that could affect the JioSaavn Platform, JioSaavn Service, JioSaavn Content, JioSaavn users and/or their devices.
- g. Liability and reputation.** Do not take any action in connection with the Developer Agreement, that could:
- i. create liability for JioSaavn;
 - ii. adversely affect JioSaavn's reputation; or
 - iii. otherwise reflect unfavorably on JioSaavn, including any action that may damage, disparage, or be detrimental to JioSaavn, the JioSaavn Service, JioSaavn Content, or JioSaavn's content providers, corporate affiliates, and partners.

- h.** Do not use the JioSaavn Platform, JioSaavn Content, JioSaavn Service, or JioSaavn Marks in any way to promote or distribute an application, product, service, website, or other offering, including any SDA that:
- i. is associated with, promotes, features, encourages, facilitates, or condones (a) illegal activity or the illegal or unauthorized use or sharing of audio and/or audiovisual content; (b) violence; (c) political positions or political candidates and/or religious causes; (d) the sale or advertisement of tobacco products, ammunition, firearms, and/or pornography;
 - ii. contains content that (a) is illegal, obscene, sexually explicit, deceptive or fraudulent; (b) could be considered offensive, defamatory, malicious, or discriminatory in any way, including on the basis of race, disability, sex, sexual orientation, or religion, or otherwise violates the user guideline set out in the JioSaavn Terms of Use.
 - iii. infringes any intellectual property or other right of JioSaavn or any third party, including any right of privacy, publicity, copyright, trademark, patent, or contractual right; or
 - iv. used to harass, embarrass, harm, or improperly target any user or artist on JioSaavn Service.

G. Reporting

In case of any instances observed that may violate any of the terms as stated in this Policy, you may report the same to legal@saavn.com with the subject line - Reporting API Policy Violation.
